

8:40 Meeting - Thursday, 1 November 1973

(2) 1. Interest in VIP Picks Up: There has been a noticeable increase in the number of phone calls requesting applications for the VIP since the Bulletin was distributed.

(1) 2. Successful Co-op Recruitment Trip: The visit to the University of Louisville <sup>on 31 October</sup> yesterday by  our Coordinator for Cooperative Programs was very successful. Out of 11 co-ops available for interviews, all 6 requirements were filled. This included the sudden vacancy in OSI for a bio-medical engineer created when the co-op scheduled to return to work in January decided to ~~enter the Ministry~~ <sup>enter the Ministry</sup>. In addition, a co-op with a great interest in photographic interpretation was selected to work in NPIC's Computer Office.

STAT

3. Change of Heart? An interesting call was received from the Director of Cooperative Education, Rochester Institute of Technology <sup>yesterday</sup> ~~this~~ morning. The school earlier had cancelled out because they claimed they had no co-ops available. Apparently the Director just recently heard of this and was very upset that we had been given this information. He has rounded up 5 electrical engineers and several other majors for interview. The trip has been rescheduled for 8 and 9 November.
